

LOOK FORWARD FOUNDATION

EMPOWERING LIVES, SHAPING FUTURES

*Look Forward Foundation is a **registered charitable trust**, with two programmes. The first being the **'Giver Seeker Programme'** and the second being, **crowdfunding**, with the intent to **empower dreams**, and **fund hope**.*

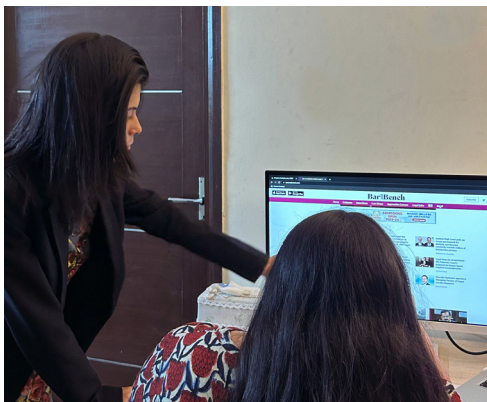

The Giver Seeker Programme

At present, the Giver Seeker Programme has around **20 individuals (Givers)**, from various sectors, mentoring Seekers, who are mostly students and or young adults who belong to lower-income families. **Over the past few years, we have observed that there is a dire need for mentors among young adults.** In the commercial industry, the cost is high and the resources to reach a mentor or therapist are low. **Through the Giver-Seeker Programme, we curate conversations between the Giver and the Seeker, at no cost.** We have a varied pool of Givers, from teachers to engineers, doctors, lawyers, techies, businessmen, entertainment consultants, jiu-jitsu trainers, and image consultants just to name a few.

Recently, through the Giver Seeker Programme, we connected with a 20-year-old girl from Bijnor, with a passion for graphic designing and art. Due to her financial situation, she is unable to monetize her skills. Our Giver spoke to her and suggested that she make a list of her skills and helped her pen down a small business plan. She shared how she would be interested in teaching her neighbourhood girls the basics of computers. Our endeavour is to reach the grassroots of this country we call home and help individuals discover their potential.

We believe that through fostering collaboration we can create a better future for all. We have a fully functional website for Seekers to identify Givers, based on their interests.

Please visit ***<https://lookforward.in>*** for more information. We are looking for Seekers and Givers. If you cannot help monetarily, we urge you to give us a few hours every month, to talk to young individuals and inspire them.

Crowdfunding

Today, more than ever, we are faced with unprecedented challenges. The impact of different crises in our country has affected countless lives, leaving them homeless, hungry and hopeless.

By contributing to our cause, you are not just making a donation; you are becoming a part of a solution. Your generosity will help us transform lives.

It requires immense effort to spot a cause. The Giver Seeker Programme is a step in that direction. It is very rewarding when on account of our intervention the Seeker or Donee is able to hold on to his dignity, self-confidence & self-respect while trying to have a place in the sun. We love to see their productivity and employability increase while triumphing over their adversity.

We recently donated Rs. 65,200/- to a senior citizen, who lost his kaccha house during the 2022 floods in Supaul, Bihar. He earns his living by giving Urdu lessons, which for his family is meagre amount. Besides this, he has to constantly take care of his wife, who has to be brought to Delhi for her spinal treatment time and again. The medical bills and travelling from treatment from Supaul to New Delhi also add to their financial struggle. Due to the constant fear of getting displaced during the rains, he reached out to Look Forward Foundation.

Through a donation of Rs. 65,200/-, we were able to build Mr. Neharul Islam a house, which can sustain the floods for the next 7-8 years.
